Innovation Challenge

Idea Boom Lyon: 2 days to develop an innovative project

Idea Boom is a hackathon aimed at solving complex problems for large companies. Students receive a document containing essential data and a problem to solve after two days of reflection.

- First prize for the resolution of EDF's problem.
- A team composed of engineers, designers and managers.
- Development of an idea sheet, a mock-up and a 5-minute pitch.

Influence and sociocultural context

As the son of a business leader (SME), I was able to discover and understand business management by experiencing it at home and participating in it when needed.
I also have a strong interest in travel, which has allowed me to become more open-minded.
